Lexius M. Waltar

Jr. Full Stack Software Engineer

(360) 593-8188 | lexius.waltar@gmail.com | https://github.com/Lexmw

I started my journey as a web developer to integrate my professional knowledge of research science with digital media to communicate the wonders of science. I am a vibrant, motivated, "team player", ready to use my developer skills to communicate with vast audiences and create some awesome things.

SKILLS

HTML/CSS | Bootstrap | SASS | JavaScript | Node.js | Express | React | Redux | MongoDB | MySQL | Git Workflow
Postman | Jira | Agile/Scrum | JQuery

EDUCATION

San Diego Code School | 07/2019 – 10/ 2019
Full Stack Web Development

University of California, San Diego | 2014-2018
Environmental Systems, BS

PROJECTS

Cheryl R. Lee Personal Brand Website
A Full Stack website created to showcase the accomplishments of a local lawyer in the community. Utilized Git Version control and agile/scrum methodologies to iterate changes during the consultation process with the client.
Technologies: HTML, CSS, Flexbox, React, React Router, Express, Node.js, Git, Agile, Jira

San Diego Code School Wakatime Worker
An app created to request student Wakatime durations from the Wakatime API, and store data in a SDCS database to keep track of student coding hours. The data was displayed in a simple, clean UI for the admin created with Bootstrap.
Technologies: JavaScript, HTML, CSS, Bootstrap, Loopback with MongoDB, Winston logger, Git, Agile, Jira
